

BAD IDEA! Some people try to sleep and rest on the plane and the last thing they want to hear are people chattering away on the telephone. The airplane is the only place you can get away from those darned things now! Not only that, people don't listen to the flight attendants now - so if they try to ask if they want a beverage - or God forbid, try to instruct something safety wise, they will be yapping on the phone. NOT SAFE!! DO NOT ALLOW THIS BILL TO GO THROUGH!!!!!!!!!!!!!!!!!!!!
